

**HOT TUBS UK**

# Why buy an IQue hot tub? what you need to know

With the vast array of hot tub models on the market, it's hard to decide which suits you best isn't it?

So we thought we'd help with an upfront, short and sweet summary to explain why IQue Hot Tubs deserve to be checked out further.

## innovation

- Swedish inspired, contemporary, ergonomic and comfortable designs you'll love.
- IQue's energy efficient Triple Thermal Shield Insulation system saves you money on electricity bills.
- Smart, reliable and user friendly Balboa® control panel - the world-renowned hot tub components manufacturer in the US.
- Heated air-blower (as opposed to cold air bubbles) for optimum user comfort.

## quality

- IQue has a first-class reputation and is a leading brand in Scandinavia.
- Every hot tub undergoes rigorous and comprehensive testing.
- Built from Aristech® acrylic sheets - a globally recognised market leader.
- Fitted with contemporary stainless steel jets as standard - you won't need to upgrade from the plastic option.

## unique

- Designed in Sweden; we can't deny the Nordics are experts at this hot tub business can we?
- The Triple Thermal Shield Insulation system and floor-pan will enable you to use your hot tub all year round.
- Unique pre-assembled pipe-manifold and silicone-free plumbing has a resilient leak-free function.
- Rigid ABS Floor pan ensures minimal heat loss and protects the equipment from ground-moisture.

## enjoyment

- Relax and enjoy your therapeutic hot tub hydrotherapy experience, proven to be beneficial to health and well-being.
- Designed for easy access for maintenance.
- Create a stylish ambience with LED colour-changing lighting paired with Sterling Silver acrylic shell.
- Each jet is in a carefully positioned spot to provide the best massage - adjust the direction, intensity and jet action to suit you.

*Taking comfort to a new level*

After some extensive market research these two models are our best sellers - giving you a high specification as standard, along with superior comfort.
